

HERDADE
ALDEIA DE CIMA

Press release – march 2025

The freshness of Serra do Mendro and the expression of time: Herdade Aldeia de Cima launches Garrafeira Red 2021.

Designed from a small batch of Alicante Bouschet and Aragonês, Garrafeira Red 2021 from Herdade Aldeia de Cima is born with a limited production of 3,000 bottles. It is a serious wine, faithful to its land, a unique combination of robust origins, sophisticated and of unusual identity.

Hand-harvested with minimal winemaking intervention, the grape varieties, in equal proportions in the blend, shape the second edition of this Garrafeira, which remains a true reflection of the natural freshness of Serra do Mendro. The 2021 vintage reflects a year of exceptional viticultural quality, yielding fresh and healthy grapes, marked by a cool summer and the characteristic pronounced daily temperature variation of this area.

Aged for 18 months in a 3,000-liter French wooden vats, followed by another 18 months in the bottle, Garrafeira Tinto 2021 is undoubtedly an expression of the singular richness of an unrepeatabe terroir, producing wines with a strong and long-lasting personality.

Luísa Amorim, owner of Herdade Aldeia de Cima, states: "This great 2021 wine, timeless and with a strong personality, is a reflection of its own origins and the result of local traditions, making it a tribute to authenticity. It could not have come from anywhere other than this Alentejo."

Herdade Aldeia de Cima Garrafeira Tinto 2021

Production: 3000 gfs de 0,75l e 120 gfs de 1,5l
